

## **CCEC Meeting – Dec 1, 2020**

At our December 1<sup>st</sup> Council meeting, reps got a sneak peak from Volunteer Canada's COVID-19 Manager Deb Pike on the Fall edition of insights from a survey of Canadian non-profits (400+) and volunteers. [Both the Fall and original Spring sets of data are available at this link, as well as a report on the Fall data.](#)

Perhaps of particular interest to companies from the Fall data slides [“View the Presentation”](#) :

- Slide 12 – Virtual volunteering, and its future
- Slides 17 & 18 – Anticipated needs for volunteers and capacity to engage volunteers
- Slide 19 - Top areas of need for skills-based and pro-bono support

You will recall that in October we launched our joint Volunteer Canada/Volunteer Ireland snapshot on the [“Effects of the Pandemic on Corporate Community Engagement”](#) with insights from 50 Canadian and Irish companies.

Volunteer Canada will continue to survey, report and translate the impact of changes to volunteering and other community engagement due to the pandemic.
